ananya.das.cs@gmail.com | +91 98xxxxxx05 | github.com/ananyadas | Kolkata

SUMMARY

Backend developer with a strong grasp of Python and Django. Comfortable building REST APIs and working with relational databases; has not worked with React or Node.js.

EDUCATION

B.E. Information Science, BMS College of Engineering (2023-2027), CGPA: 8.4/10

SKILLS

Python, Django, Django REST Framework, PostgreSQL, SQLite, Git, basic HTML/CSS, Postman

PROJECTS

Campus Lost & Found Portal

- Built with Django and Django REST Framework, PostgreSQL as the database
- Server-rendered templates with Django (no separate JS frontend framework)

Blog API

- REST API built with DRF supporting CRUD operations and token authentication

CERTIFICATIONS

Python for Everybody (Coursera)
