SUMMARY

Android developer with experience building mobile apps in Kotlin. Has integrated REST APIs into mobile apps but has not built web frontends or Node.js backends.

EDUCATION

B.E. Computer Science, MS Ramaiah Institute of Technology (2023-2027), CGPA: 8.3/10

SKILLS

Kotlin, Java, Android SDK, REST API integration (Retrofit), Firebase, SQLite, Git, basic Python

PROJECTS

Campus Food Ordering App (Android)

- Built a native Android app in Kotlin, integrated with a Firebase backend
- Used Retrofit to consume REST APIs for menu and order data

Habit Tracker App

- Android app with local SQLite storage and Firebase authentication

CERTIFICATIONS

Android Developer Nanodegree (partial, Udacity)
