## SUMMARY

Full stack developer with hands-on experience in Angular and Node.js. Comfortable with backend REST API design but has not worked with React specifically.

## EDUCATION

B.E. Computer Science, NMAM Institute of Technology (2023-2027), CGPA: 8.1/10

## SKILLS

Angular, TypeScript, Node.js, Express.js, MongoDB, MySQL, REST APIs, Git, RxJS, Bootstrap

## PROJECTS

### Hostel Complaint Management System

- Built with Angular frontend and Node.js/Express backend, MongoDB for data storage
- Implemented role-based dashboards for students, wardens, and admin staff

### Inventory Management Tool

- Node.js/Express REST API with MySQL, basic Angular frontend for CRUD operations

## CERTIFICATIONS

Angular - The Complete Guide (Udemy)
