

TechNova Solutions

Junior Full Stack Developer Intern | Bengaluru (Hybrid) | 6-Month Internship

ABOUT THE ROLE

TechNova Solutions is looking for a Junior Full Stack Developer Intern to join our product engineering team. You will work closely with senior developers to build and ship features for our internal SaaS product, contributing across the frontend and backend of the application.

KEY RESPONSIBILITIES

- Develop and maintain web application features using React (frontend) and Node.js/Express (backend)
- Design and consume REST APIs; work with relational and NoSQL databases
- Write clean, tested, and maintainable code; participate in code reviews
- Collaborate with designers and product managers in an agile/scrum environment
- Debug and resolve issues reported by QA and users

MUST-HAVE SKILLS

- Proficiency in JavaScript (ES6+) and at least one modern frontend framework (React preferred)
- Experience building backend services with Node.js and Express (or similar)
- Working knowledge of REST APIs and JSON
- Familiarity with SQL or NoSQL databases (MySQL, PostgreSQL, MongoDB)
- Version control experience with Git/GitHub
- Pursuing or holding a degree in Computer Science, IT, or a related field

GOOD-TO-HAVE SKILLS

- TypeScript
- Cloud basics (AWS/GCP/Azure)
- Testing frameworks (Jest, Mocha)
- Docker / basic containerization
- Prior internship or personal projects deployed live
- Exposure to Agile/Scrum practices

SOFT SKILLS

Strong problem-solving ability, clear communication, willingness to learn new tools quickly, and comfort working in a fast-paced, collaborative team environment.
